

FILLS WITH SIXTEENTH NOTES

*After you master the fill for each exercise try changing the groove or beat before the fill.

**Also experiment with starting the fill in different parts of the measure.

--For example instead of starting the fill on count 3, try starting the fill on (count 2) or the (& of count 3), (& of count 2), (a of count 2), (e of count 3), etc. Remember to start with the hand of the count you are reading if you want to resolve to your right or dominant hand on count 1. With 16th notes, your right hand is usually on 1&2&3&4&.

The left hand is usually e a.
